

AJAR Technology has been named a supplier on Crown Commercial Service's Tech Services 3 Framework

AJAR Technology has been named a supplier on Crown Commercial Service's Tech Services 3 Framework, which went live on the 14th of July 2021. This is the follow on from the successful Tech Services 2 framework.

Crown Commercial Service (CCS) supports the public sector to achieve maximum commercial value when procuring common goods and services. In 2019/20, CCS helped the public sector achieve commercial benefits worth over £1 billion, supporting world-class public services that offer the best value for taxpayers.

AJAR Technology can be found in these lots on the Framework:

Lot 1 Technology Strategy and Service Design

Lot 2 Transition and Transformation

Lot 1 encompasses the comprehensive design and technical consultancy enabling us to support the early development of digital transformation journeys. This includes strategic initiatives such as designing the technology roadmap and technology standardisation.

Lot 2 incorporates end to end transition and transformation services which support the implementation of new services, architectures or processes in line with digital strategy.

AJAR Technology is a highly regarded and very successful SME end-to-end systems integrator. We are providing a full range of world-class, custom-designed audio-visual, digital media, and security systems, as well as specialised integrated solutions.

We have been assisting public sector organisations through their digital transformation journeys since 2005.

We look forward to continuing to work with our existing public sector clients and to servicing the needs of new clients in the public sector – helping them find newer and better ways of working, through the use of state of the art technology.

We want to congratulate our team on this achievement and look forward to building on our public sector client base through the framework.
